House Committee on Veterans' Affairs  
335 Cannon House Office Building  
Washington, D.C. 20515

Dear Congressmen and Committee Members:

I regret I am not able to be with you today to discuss how EFT has completely changed my life and has given me the most healing tool of all. I am able to fully live my life with so much abundance, clarity and purpose. I am not present on this historic occasion due to finally having a set routine in my new found career and responsibilities of being a new father and supporting husband. I love my country, and my fellow veterans, but I think our country owes our veterans more than just a thank you; we owe them their freedom that they have fought for in combat, and are still fighting for through their long drawn out PTSD in their everyday civilian lives. The answer is EFT, Emotional Freedom Technique! This technique has worked for me as well as fellow Marines that I have served with. Maybe our answer has really been easier to find than we ever thought possible, and much, much cheaper. It has always been at the tips of our fingers. Please give this amazing and wonderful gift of freedom to our veterans; I think we have earned it.

Thank you for the opportunity to let my words be heard.

Semper Fidelis,  
Henry Carlin Sloan III
