Tinnitus	90%	
Nightmares	90%	
Depression	80%	
Hyper-vigilance	50%	
Panic Attacks	50%	

ALL WITHOUT DRUGS! EFT sessions in person, by phone, or via Skype.

“The results were dramatic, swift and lasting.” Vietnam Combat Vet

The Veterans’ Stress Project offers all Veterans no cost, drug-free EFT coaching. Emotional pain and mental distress are substantially diminished using Emotional Freedom Techniques.

Multiple independent studies also show pain diminishes an average of 68% with EFT.

Veterans are invited to join in this evidence-based research. Personal info is **confidential** and data is **anonymous**.

Over 85% of Vets who have participated have resolved most of their PTSD symptoms (insomnia, anger, grief, hyper-vigilance) in six 1-hour sessions. 3 and 6 month follow-ups confirm that the benefits are lasting.

ADOPTING THE RIGHT ATTITUDE
CAN CONVERT A NEGATIVE
STRESS INTO A POSITIVE ONE.

~ HANS SELYE

VETERANS' STRESS PROJECT

“I was given a tool and I used it. EFT succeeded where prescribed drugs, therapies & booze failed. This I swear on my name and my oath. Semper Fi”

MSG Kenneth Lee Self (Ret) USMC

Relieves Chronic Pain, Anxiety, Insomnia & Stress

The Veterans’ Stress Project helps Veterans learn an evidence-based, drug-free, self-help technique proven effective in relieving a wide range of stress-related symptoms.

Serves all US Veterans at NO COST.

**Non-profit.
Volunteer operated.
No religious or governmental affiliation.**

What Vets say:

“I mean this sincerely, especially talking to other Veterans.... Give it a shot, because I’m living proof. So, hang in there.”

Bob Culver, Vietnam Veteran

“I haven’t felt this good doing cocaine. I haven’t felt this good drinking. I hope that people would just take it, just try it. Just try it once.”

Andy Hodnick, Gulf War Veteran

“Before I did the EFT thing, for me to say “I’m happy,” that would just be weird... and I say it probably like 10 times a day now.”

Carlin Sloan, Iraq Veteran

“I can’t emphasize enough how important it is that you can actually feel like a real person again and not be afraid. And not have to cover up all of your junk every single day of your life.”

Art Fritog, Vietnam Veteran

“After EFT I feel released from an emotional prison.”

US Army Medic, Desert Storm

“I have learned to control the vomiting. I’ve increased my sleep.”

Vietnam Veteran

“I finally have been able to sleep at night without waking up in combat. I finally have my life back.”

Staff Sergeant, Brian Davis

“The results were immediate... Overall, I regained the quality of life I had prior to deployment.”

Olli Toukolehto, Army, Iraq

**DRUG-FREE EFT sessions: in person,
by phone or via Skype.**

Free, Effective, Non-Drug Support for Veterans of any era

US Veterans qualify for **6 free, private sessions** as part of on-going research. Veterans who participate contribute to the mission of helping thousands of other Veterans and their families.

All personal information is **confidential** and data is **anonymous**.

By contributing to this evidence-based research on the front line, Veterans not only benefit themselves, but also help make this remarkably effective tool available much sooner to Vets who need it now.

Please participate if you have ANY of the following conditions:

- ◆ Insomnia or nightmares
- ◆ Alcohol, drugs or depression
- ◆ Anger, anxiety, or panic attacks
- ◆ Rage, grief or guilt because you survived
- ◆ Feeling isolated, unsafe, jumpy
- ◆ Being triggered by other people
- ◆ Or, if you have not sought help for fear of damage to your military or civilian career.

Rev: 8/13/12

Families & Friends: YOU are the life-line

The vast majority of Veterans accept help only after they are encouraged by someone they trust: family, friends, counselors, and other Veterans.

Share this information with those who support Veterans. **You are the ones who make this drug-free solution available.**

Veterans: Do you have a mission to help others?

Use this opportunity to get your own life back on track by learning to manage or resolve your own pain and stress.

You have already made a difference for your country. Now choose to make a difference for yourself, your family, and your community.

The Stress Project is dedicated to helping Veterans help themselves.

This volunteer project has demonstrated results in improving the quality of life and care of our Veterans.

All Veterans’ Stress Project services are provided by VSP Coaches at no cost. Only VSP Coaches are involved with research. They are identified on the VSP website in italics.

Additionally, any EFT practitioner who is not a VSP Coach and who offers no cost or low cost services to Veterans and their families can ask to be listed on the VSP website. However, the listing does not constitute an endorsement of the practitioner’s skills or abilities.

The Veterans Stress Project is an initiative of Soul Medicine Institute, a 501(c)(3) non-profit research and teaching institution which has no religious or governmental affiliation.
